

SDG Indicators 2.3.1 and 2.3.2 - Labour productivity and income of small-scale food producers

© FAO/Stephanie Glinski

This course has been developed to support countries in computing and monitoring Indicators 2.3.1 and 2.3.2 of the 2030 Sustainable Development Goals (Labour productivity and income of small-scale food producers), and to facilitate the understanding of the main concepts underpinning the methodology.

 3.5 hours

 Available in English

You will learn about

- Nature and importance of the role of small-scale food producers
- Rationale of Indicators 2.3.1 and 2.3.2 within the 2030 Agenda
- Main tools to measure the Indicators 2.3.1 and 2.3.2
- Methodology to perform data collection, identification of the national target population and computation of the indicators
- The types of data required for the computation of Indicators 2.3.1 and 2.3.2 and critical data gaps to be addressed

Who is the course for?

This course is primarily intended for professionals who play a role in the data collection, analysis and reporting on SDG Indicators 2.3.1 and 2.3.2. This includes:

- Policy-makers or advisors
- Statisticians
- Representatives of NGOs, regional organizations, academia/researchers and the donor community

Key partners

This course is part of a series on Sustainable Development Goal indicators, developed by the Food and Agriculture Organization of the United Nations (FAO) to support countries in the collection and analysis of statistical information for those SDG indicators for which FAO is custodian UN agency.
